📍 Swabi, Khyber Pakhtunkhwa, Pakistan

SUMMARY

Motivated 6th-semester Computer Science student at University of Swabi with hands-on experience in **Odoo 19 ERP** functional and technical development, Python programming, and web technologies. Proficient in configuring core Odoo modules including Sales, Purchase, Accounting, Inventory, and Employee. Built a complete **Car Workshop ERP mini-project** on Odoo 19 and developed multiple Python applications covering OOP, file handling, and data structures. Passionate about converting business requirements into practical ERP and software solutions.

ODOO ERP EXPERIENCE

Odoo 19 Functional & Technical Developer

Academic & Self-Directed — University of Swabi | 2024 – Present

- Configured and customized **Sales Module**: sales orders, customer management, price lists, quotations, and complete invoicing workflows.
- Managed **Purchase Module**: vendor bills, purchase orders, vendor management, and goods receipt processes end-to-end.
- Set up **Accounting Module**: chart of accounts, journal entries, bank reconciliation, financial reports, and tax configuration.
- Administered **Inventory Module**: stock management, warehouses, product variants, reordering rules, and delivery operations.
- Configured **Employee Module**: employee profiles, departments, contracts, attendance, and leave management.
- Applied **Python & XML** for Odoo customizations — custom fields, views, computed fields, and business logic extensions.

PROJECTS

Car Workshop ERP — Odoo 19 Mini Project

Odoo 19 · Python · PostgreSQL · XML · QWeb Reports

- Sales Module**: Service job cards, customer invoicing, and quotation-to-invoice workflow for vehicle repair services.
- Purchase Module**: Spare parts procurement, vendor management, and purchase order automation.
- Inventory Module**: Real-time spare parts stock tracking, warehouses, product categories, and stock movements.
- Accounting Module**: Revenue & expense tracking, bank reconciliation, profit & loss reporting, and tax management.
- Configured end-to-end business workflows connecting Sales → Inventory → Purchase → Accounting modules seamlessly.

Student Grade Management System — Python

Python · File Handling · OOP · CLI Application

- Console app to add students, record subject marks, calculate GPA, and generate grade reports using OOP and file I/O.

Library Management System — Python

Python · OOP · Data Structures · CLI Application

- CRUD-based system for books, members, and borrowing records with search, availability tracking, and fine calculation.

Simple Banking System — Python

Python · OOP · Exception Handling

- Simulated bank operations: account creation, deposit, withdrawal, balance inquiry, and transaction history using OOP and exception handling.

To-Do List App — Python

Python · JSON · File Handling · CLI

- Task manager CLI app with add, update, delete, and status tracking; data persists via JSON file storage.

EDUCATION

Bachelor of Science in Computer Science

University of Swabi · 2023 – 2027 · Currently 6th Semester

Intermediate (FSc / ICS)

Peshawar Model Degree College · Completed 2023

TECHNICAL EXPERTISE

ERP & Odoo:

Odoo 19 · Odoo Functional · Odoo Technical · Sales Module · Purchase Module · Accounting Module · Inventory Module · Employee Module · QWeb Reports · XML Views · Odoo Customization · Business Workflow Configuration · ERP Solutions

Programming Languages:

Python · HTML5 · CSS3 · JavaScript (Basics) · SQL

Python Skills:

OOP · File Handling · Data Structures · Exception Handling · JSON · Modules & Packages · Functions · Algorithms · CLI Applications · String Manipulation

Web Technologies:

HTML5 · CSS3 · JavaScript · Responsive Design · Bootstrap (Basics)

Database & Backend:

PostgreSQL · MySQL · Odoo ORM · Database Design · ERP Backend Logic

Tools & Platforms:

VS Code · Git · GitHub · Odoo 19 Community · Microsoft Office · Google Workspace

Professional Skills:

Problem Solving · Quick Learner · Team Collaboration · Communication · Business Requirement Analysis · Analytical Thinking · Time Management · Adaptability

CERTIFICATIONS & TRAINING

Odoo Functional & Technical Development — Practical Self-Directed

Python Programming — University Coursework & Project

Web Development Fundamentals — HTML, CSS & JavaScript

ERP Business Workflows — Sales, Purchase, Accounting Inventory

Database Design & SQL — University Coursework

CORE COMPETENCIES

Odoo ERP Functional · Odoo Technical Development · Odoo Customization · Python Development · ERP Configuration · Sales & Purchase Workflows · Accounting & Inventory Management · Employee Module · QWeb Reports · XML Views · PostgreSQL · OOP in Python · Business Workflow Analysis · Mini Project Development · HTML & CSS · JavaScript · Git · Problem Solving · Data Structures · File Handling · Database Design · ERP Solutions

LANGUAGES

Pashto · Urdu · English
